To Whom It May Concern:

I am writing in regards to Phyllis Lise and her charity "Dressing Angels"; I have known Phyllis for 2 years and have used her services which have proven to provide a need that was over-looked for many years.

I have worked in social services for Baycare Behavioral Health 26 years – on the adult and geriatric units at Morton Plant (Clearwater) and Mease (Dunedin). Providing clean clothes for our patients being discharged - mainly the homeless and elderly with no local families – has always been a challenge. The staff has tried to keep up our "community clothing closet" by bringing in our own donations, but the need always exceeds what we have available. Often our patient's clothing has to be thrown out, so having fresh clean clothes to leave the hospital in gives them the dignity they deserve.

Thanks to Phyllis, our community closet is always full now, and I can always count on Phyllis to replenish when needed.

I highly endorse Dressing Angels, and that any support from community businesses is well-deserved and appreciated.

Sincerely,
